1 Latar Belakang

Perkembangan teknologi informatika telah berkembang pesat dan mempengaruhi hampir semua aspek kehidupan, salah satu media informasi tersebut adalah internet. Internet dapat dimanfaatkan menjadi banyak hal, salah satunya sebagai media jual-beli (*E-Commerce*). Kami pun juga berusaha memanfaatkan teknologi ini sebaik mungkin dan akhirnya kami memutuskan untuk membuat Aplikasi Desa Wisata Tempellemahbang.

Aplikasi ini kami buat karena kami ingin memajukan dan mempermudah desa wisata dalam menjual produk andalan mereka tanpa perlu memasang iklan yang ter lalu banyak, dan melakukan transaksi dengan aman, cepat dan mudah dengan melalui aplikasi.

2 Analisa dan Desain Aplikasi (OOP), Pemodelan UML

2.1 Analisa Kebutuhan User

Analisa kebutuhan pengguna berfokus pada aplikasi Tempellemahbang :

| Kategori Pengguna | Aktivitas |
|---------------------------|---|
| Pelanggan / pengunjung | <ul style="list-style-type: none">a. Dapat melakukan pendaftaran akunb. Dapat melakukan transaksic. Dapat mengubah akun(<i>username</i> dan <i>password</i>)d. Dapat melihat berbagai macam produke. Dapat Login dengan <i>username</i> dan <i>password</i> yang telah didaftarkanf. Dapat melihat tampilan Pembayaran |
| Admin | <ul style="list-style-type: none">a. Dapat mengubah, menghapus, menambahkan produkb. Dapat melihat data pembayaranc. Dapat melihat, mengubah, menghapus, menambahkan data pelanggan. |

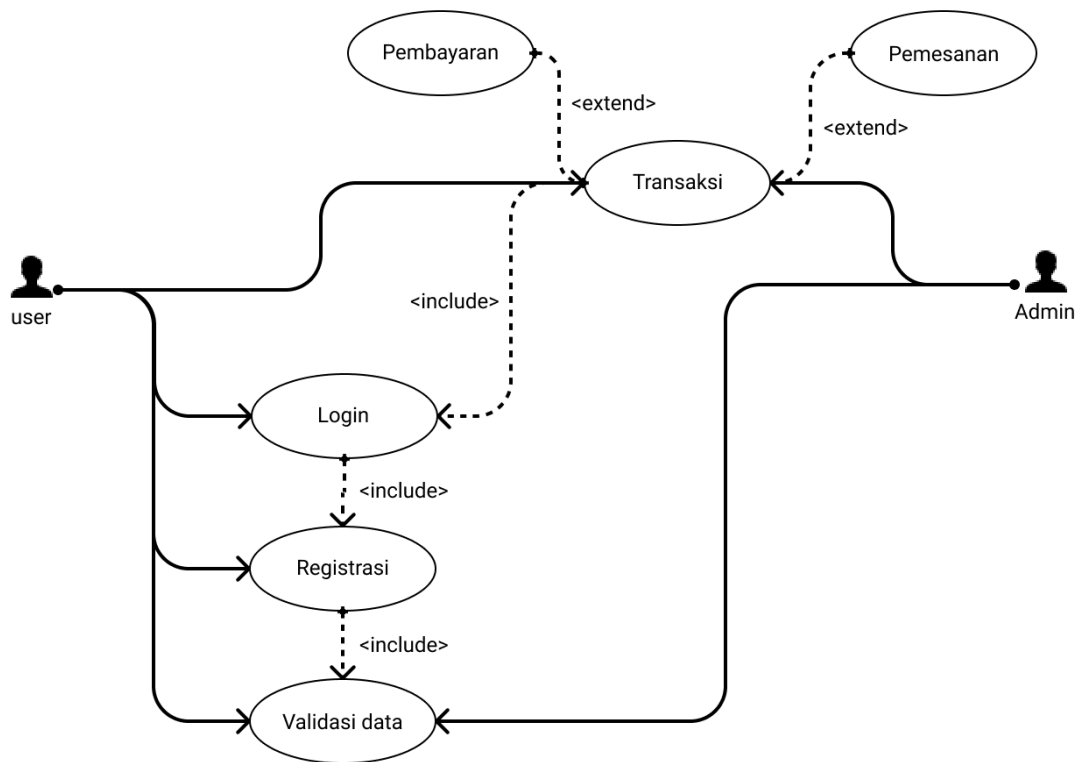

2.2 Analisa Kebutuhan Hardware dan Software

Adapun perangkat keras dan perangkat lunak yang penulis usulkan adalah *Handphone* yang mempunyai spesifikasi sebagai berikut :

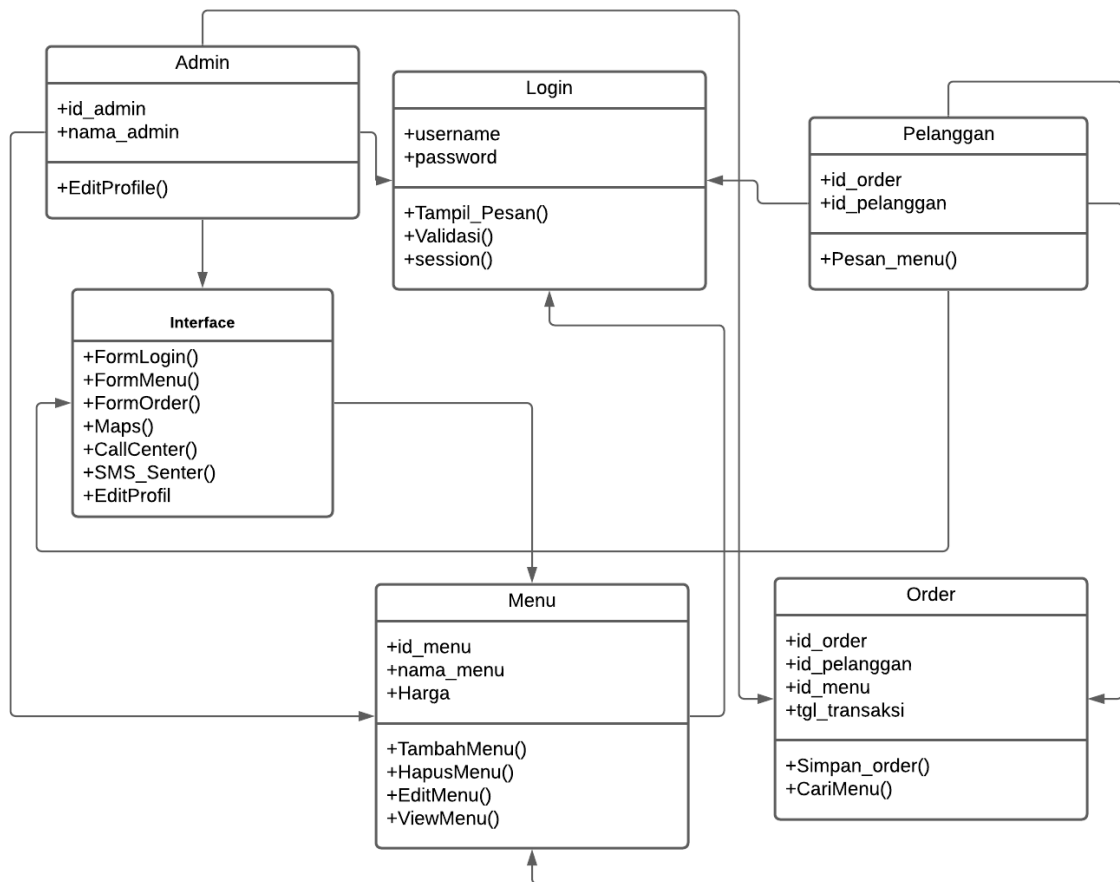

- a. Processor : kecepatan 1 Ghz

- b. Memory Size (RAM) : 1 GB
- c. Storage : 16 GB
- d. Android Version : 4.4 KitKat atau terbaru

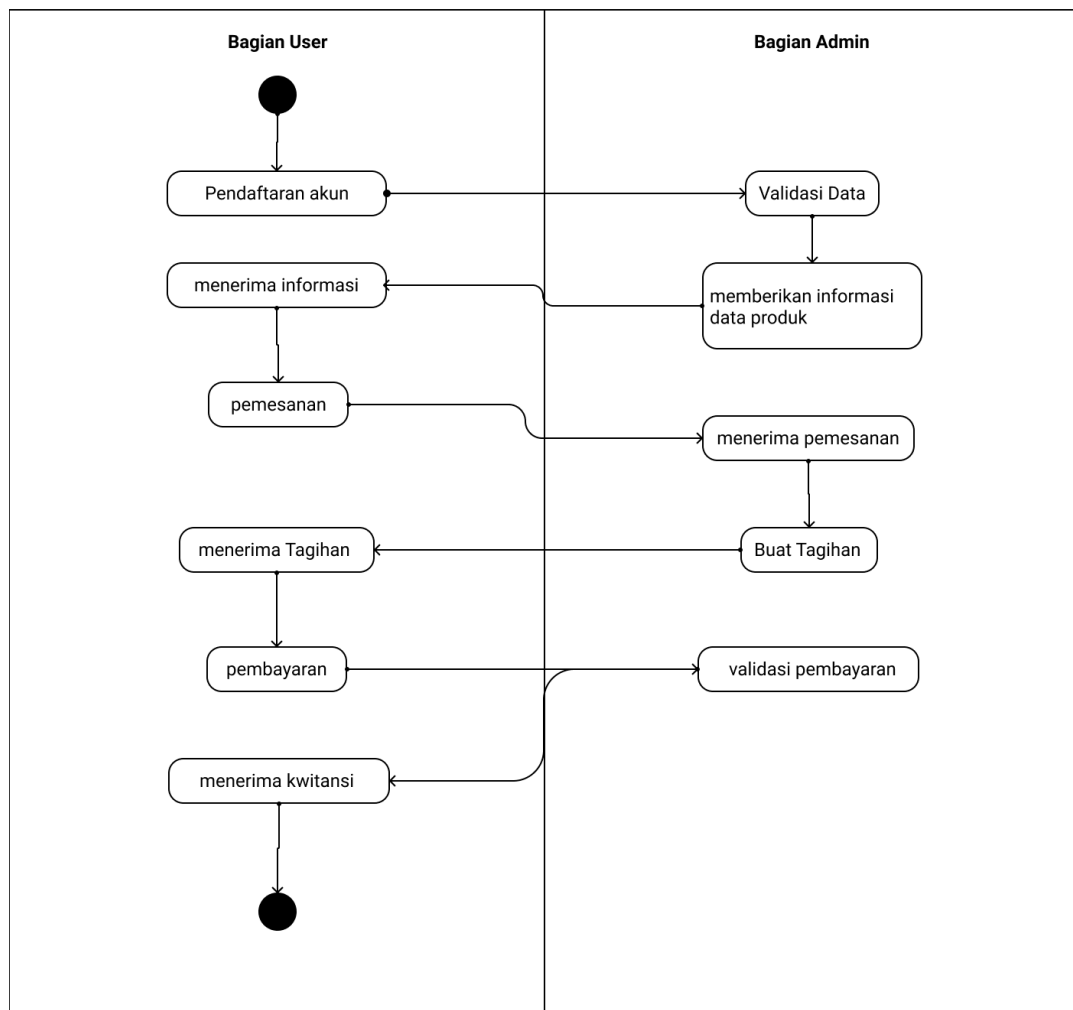

2.3 Diagram Use Case

2.4 Diagram Class

2.5 Diagram Aktivitas

2.6 Desain Database dan Table

Kami tidak menggunakan database dan tabel melainkan kami menggunakan *Shared Preferences* dari aplikasi tersebut, berikut ini isi dari *Shared Preferences*.

Nama : account

Key : nama, username, password

2.7 Desain Input dan Output

2.7.1 Desain Input

The image displays five mobile application screens with a purple header bar. The first screen is the 'SIGN UP' page, featuring input fields for 'Nama Lengkap', 'Username', and 'Password', a 'Sign Up' button, and a 'Login' link. The second screen is the 'SIGN IN' page, with input fields for 'Username' and 'Password', a 'Sign In' button, and a 'Create Account' link. The third screen is the 'Pembayaran' (Payment) page, showing a total payment amount of 30,000 and a 'Kembali' (Back) button. The fourth screen is the 'Profile Setting' page, with input fields for 'Username' and 'Password', and 'UPDATE' and 'CANCEL' buttons. The fifth screen is a duplicate of the 'Pembayaran' page.

2.7.2 Desain Output

3 Implementasi Sistem

Berikut penjelasan implementasi sistem aplikasi tempellemahbang :

- Aplikasi dapat di install di android versi 4.4 keatas
- Pengguna membuka aplikasi lalu akan diarahkan ke halaman *Sign In / login*
- Jika pengguna belum memiliki akun, maka dapat beralih ke halaman *Sign Up* untuk mendaftarkan akun dengan menginput nama lengkap, username dan password.
- Setelah mendaftar akun, pengguna dapat melakukan *sign in* langsung.
- Setelah *Sign in* berhasil, pengguna akan diarahkan ke halaman dashboard/menu utama yang berisi paket dan tiket wahana.

- f. Pengguna dapat melihat deskripsi produk dengan menekan nama produk yang ada.
- g. Pengguna dapat memilih produk makanan apa saja untuk melakukan pemesanan dengan cara mengklik gambar pada setiap menu dan secara otomatis akan dihitung totalnya
- h. Pengguna dapat langsung melakukan checkout dan pembayaran dengan cara mengklik total harga.
- i. Jika mengisi kolom pembayaran sistem secara otomatis menghitung kembalian.
- j. Pengguna dapat mengganti username, dan password miliknya melalui menu setting di pojok kanan atas.

Dan Kami membuat video tutorial pengguna di link youtube berikut :

https://youtu.be/ceTKTO_bHPU

PENUTUP

4 Kesimpulan

Jadi dari aplikasi tempellemahbang kami mengharapkan dengan adanya aplikasi ini desa wisata Tempellemahbang semakin berkembang maju dan efisien dalam pelayanan pengunjung – pengunjung desa wisata Tempellemahbang
